Personal Profile

I am self-motivated, confident and outgoing with engineering experience. A talented UX/UI designer, structural engineer, architect, Python developer eager to use programming languages in modern software engineering and web development. I have a successful track record in working closely with clients, designers, site managers, sub-contractors, suppliers and the public. I am now seeking a challenging and responsible role within a forward-looking company offering career prospects and the opportunity to participate in engineering projects.

Summary Of Skills

- Excellent skills in design, development, and test of information processing codes. Deep understanding of user interface and how to implement solutions tailored to user requirements.
- Outstanding interpersonal skills and an excellent team player. Punctual and efficient.
- Work ethic, commitment, determination, focus, innovation, imagination, and discipline.
- Humility, diligence, commitment, motivation and an open mind. Persistence in meeting targets, deadlines, and timescales to get things done.
- Persistence to work to targets, deadlines and timescales as required to get stuff done right.
- Proficient at documenting and asking for feedback on tasks.
- Well versed in Microsoft packages are among the various engineering and IT software packages.

Employment History

- **Jan 2022-Present, Hackathons**

Provide contributions to the following projects:

- Accelerating the future of workforce well-being and mindfulness

Rethinking solutions to help build an initiative to improve different aspects of mental health and well-being in 2022

- Love is in the air

- **Nov 2021-Present, University Centre South Devon**

Currently, I am pursuing a degree in Web Development.

In my role, I am responsible for designing a responsive and accessible website so gym members and potential gym members can learn more about the gym. You can find the Fun-Gym website here:

https://amir-rastkhadiv.github.io/fun-gym/

• **Nov 2021-Present, Code Institute**

Student in Web Development Application.

I deployed the Love Running project mini-project designed by The Coding Institute in my own working space, a responsive and accessible website built entirely applying HTML and CSS. The Love Running is a mini-project. It is intended for learning purposes to make it easy to learn and practice HTML5 and CSS3 components of the so-called trinity of web development building blocks and JavaScript.

• **Dec 2020-Present Real Python**

Pythonista excels in the development of Python programs.

For the past couple of years, I have been a member of an online learning platform and an expert community for Python software developers. Awarded certificates include Django Admin Configuration, Managing Python Dependencies, Working with JSON Data in Python, Object-Oriented Programming (OOP) in Python, Python's String Convention, Improving tests with Python Mock Object Library.

Education And Qualifications

• **MSC (ENG) Structural Engineering, 2014**

   The University of Sheffield, Department of Civil and Structural Engineering.

Memberships And Training

- I am actively involved in the Real Python learning programme.
- The Codecademy has awarded me certifications from the Code Foundation, Beautiful Soup, HTML, CSS, Flask, and Git.
- I am a graduate of Janets UK with a diploma in computer science and programming and Python 3.
- Professionally Qualified Person CSCS card and CITB Safety Certificate. CITB Site Safety Plus certification.
- Member of Institution of Civil Engineers (ICE) since 2015.
- Certificate of job safety in building construction project sites, Professional licence in civil engineering.
- I am certified in position and legal duties for municipalities.

Languages

I speak Persian and English Languages. Also, I have higher education in both languages.

Hobbies and Interests

I enjoy swimming, running, playing chess, playing tennis and surfing the internet. I also spend time with family and friends whenever possible.
